EDUCATION

Sahyadri College of Engineering and Management

B.E. in Computer Science and Engineering (CGPA: 9.31 / 10.0)

Boscoss PU College

Pre-University Education in PCMC (555/600 | 92.5%)

Aug. 2023 – Present

Mangaluru, India

June 2021 – July 2023

Mangaluru, India

EXPERIENCE

Datavex AI Pvt. Ltd.

Software Developer Intern

Mar. 2026 – Present

Mangaluru, India

- Established core application frameworks, development standards, API patterns, and engineering workflows supporting a 10-member development team across the startup.
- Built the foundation of a 2D-to-3D generation platform using Next.js, WebAssembly, OpenSCAD, and build123d (Python), serving as the base for 2 downstream applications spanning shipbuilding and automated G-code generation.
- Developed a reusable multi-module ERP platform comprising 9 modules using Next.js, NestJS, FastAPI, Docker, and Nx Monorepo, establishing standardized architecture for configurable business deployments.

PROJECTS

KhataPe – Shared Expense Tracker | [GitHub](#)

Kotlin, Jetpack Compose, Room DB, WorkManager, DataStore, MVI, Clean Architecture

Dec. 2025 – Jan. 2026

- Architected an Offline-First Android ledger app for peer expense splitting and debt tracking using MVI + Clean Architecture.
- Built reactive persistence with Room, Kotlin Flows, and DataStore; used WorkManager for reliable background synchronization.

Transliterator (Smart India Hackathon 2025) | [GitHub](#)

Camera2 API, Android SDK, Kotlin, FastAPI, Google ML Kit, Aksharamukha, Python

Sep. 2025 – Nov. 2025

- Built a real-time mobile script conversion system using Camera2 API and local Google ML Kit OCR for camera-based text extraction.
- Connected asynchronous Android clients to a FastAPI/Python backend for cross-vernacular transliteration.

AI Traffic Violation & OCR Pipeline | [GitHub](#)

Python, YOLOv8, OpenCV, Tesseract OCR, React, Node.js, REST APIs

Feb. 2025 – Sep. 2025

- Engineered a computer-vision pipeline processing 30+ FPS video using YOLOv8 for real-time detection and tracking.
- Integrated Tesseract OCR for license-plate extraction and a React + REST API administrative dashboard.

LEADERSHIP & VOLUNTEERING

SSTH & Synergia – Sahyadri College

Documentation Lead & Organizing Member

2024 – 2025

Mangaluru, India

- Led a 10-member team and worked with organizing committees to plan documentation, logistics, and communication for major fests hosting 500+ participants.
- Organized clear workflows and schedules across workshops and evaluation rounds, ensuring seamless cross-team coordination that led to the event's success.

TECHNICAL SKILLS

Languages: Kotlin, Java, Python, C/C++, TypeScript, JavaScript, SQL (PostgreSQL)

Android: Android SDK, Jetpack Compose, MVI/MVVM, Clean Architecture, Camera2, Room, WorkManager, DataStore, Koin

Backend/Web: Next.js, React, NestJS, Node.js, FastAPI, Vite, Tailwind CSS, REST APIs

AI/ML: YOLOv8, OpenCV, Tesseract OCR, Google ML Kit, PyTorch

Tools: Git/GitHub, Docker, Nx Monorepo, WebAssembly, Vercel, Azure, Postman, Gradle

CERTIFICATIONS

Coursera: Modern Android Development (MAD), Generative AI & LLMs | **Microsoft:** AINNOVATION 2025 |

HackerRank: SQL (Advanced), React | **Infosys:** Linux Systems Administration
